

## Biological and Behavioral Approaches to Typical and Atypical Development Postdoctoral Training Program

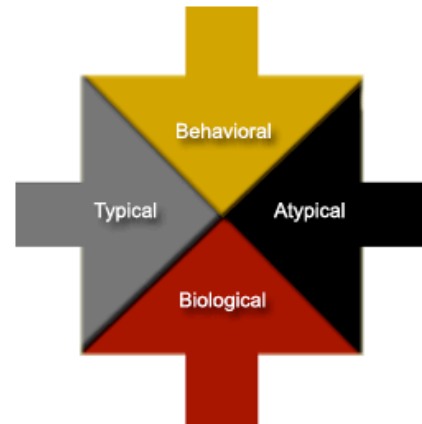

### POSTDOCTORAL TRAINING IN BIOLOGICAL AND BEHAVIORAL APPROACHES TO TYPICAL AND ATYPICAL DEVELOPMENT

at the University of Wisconsin-Madison

The NIH Roadmap funded Postdoctoral Training Program in Biological and Behavioral Approaches to Typical and Atypical Development at the University of Wisconsin-Madison has immediate and ongoing post-doctoral fellowship positions available. Further information about the Biological and Behavioral Approaches to Typical and Atypical Development, including application materials, is available at <http://psych.wisc.edu/lang/bbtad/index.html> as well as

<http://www.psychologicalscience.org/observer/getArticle.cfm?id=2067>

Eligibility is restricted by federal guidelines to U.S. citizens and permanent residents, and stipends are determined according to experience. The University of Wisconsin-Madison is an equal opportunity employer. Women and members of minority groups are especially encouraged to apply.
